

# Privacy Policy

Metaps Crypto Gateway Inc. (“we”) will process personal data of customers (“you”) obtained upon your pre-registration as follows.

## Collection and Use of Personal Information

We will only use the personal information collected at pre-registration for the purposes below (“Purposes”), unless (a) we obtained prior consent for using personal information for other purposes from the customer, or (b) such use is permitted under applicable laws or regulations.

1. Notifications with respect to Metalist’s campaign, launch of services, and other service related information,
2. Communication to the customer as well as promotion of our products or services, or
3. Analysis of the usage of the products, and improvement or development of the services with processing personal information so as not to be able to identify a specific individual.

Any changes to the Purposes shall be done only if the changes are reasonably relevant to the Purposes prior to the changes. Also, when the Purposes is changed, we will inform the customers or make appropriate disclosures regarding such changes.

## Disclosure and Provision of Personal Information to Third-party

We may disclose the personal information to outsourcing contractors to collect and analyze information, upon signing outsourcing agreement.

We may also share personal information to Metaps Inc., our parent company. Unless permitted by the laws, we will not provide personal information to any other third party without the consent from the relevant customer.

## Management of the Personal Information

We will take appropriate measures to manage personal information to prevent leakage, damage, or loss of personal information.

## **Compliance of Relevant Laws and Regulations**

We will comply with any laws, guidelines issued by the government, or regulations applicable to the personal information we have collected.

## **Review of the Personal Information Protection Management System**

We will establish and manage internal system to protect the personal information. We will also make a continuous effort to improve our Personal Information Protection Management System (including personal information protection rules and other relevant rules)

## **Questions or Concerns on Personal Information**

For any questions or concerns on the personal information we have collected. please contact below contact at our customer service
